

03rd February 2016

Sub: Employment Certificate for **Praveen M**

To whomsoever it may concern

This letter will serve to verify the employment of **Praveen M** by this organization from 04th July 2011 to till date.

Praveen M is currently holding the position of a **Senior Software Engineer**. This statement is submitted for the purpose of attesting the progressive experience gained in the field of computer science and engineering during his tenure with our organization. This statement is made under the penalty of perjury and is issued to the best of the knowledge and belief of the undersigned.

Praveen M began his employment in the capacity of a **Software Engineer**. In this position, he was engaged in the following duties and responsibilities:

As a Software Engineer in the Fifth Third Bank project, he was involved in developing and supporting web based software solutions for the mortgage domain. His responsibilities were to understand requirements and develop the application as per specifications, taking care of deployments and maintain the developed applications. He developed the applications using J2EE technologies, Flex, Wicket, Oracle database and Clear Case.

Based on his performance during the above tenure, Employee was promoted as **Senior Software Engineer** during January 2014. In this role, he has taken up the following additional responsibilities:

As a Senior Software Engineer he is responsible for high level and low level technical design, project planning, and analysis of requirements and design. He is also involved in implementation of best design and coding practices in the project. He is working in a team of 3 people and, is also responsible for the delivery, timeliness and quality of the assigned module which involves tracking and monitoring progress of the team and implementing the SEPG process guidelines. He is also involved in customer interaction for understanding and interpreting user requirements.

He moved into Freedom Mortgage Development Team and started contributing towards the development of business solutions to design WebServices and build services using the Service Oriented Architecture. He is working in a team of 6 people and is responsible for design, delivery and quality of the assigned module which involves tracking and monitoring progress as per the SEPG process guidelines. He is currently reporting to Shashirekha Vasudevan, Project Manager, Freedom Mortgage.

Praveen M has been engaged in the duties of a Senior Software Engineer including the design, development and testing of computer software systems for specialized business applications. He demonstrated the application of theoretical and practical knowledge of computer systems and applications to the degree that is found among those who have acquired at least a bachelor's degree level education in the field of computer systems and engineering.

Praveen M gained progressive experience, was assigned more complex tasks, and acquired greater responsibilities in his position. He applied principles and techniques of computer science, engineering, and mathematical analysis to his tasks and analysis of software requirements to determine the feasibility of designs and other related problems. **Praveen M's** position is full time, 40 hours per week.
